About Me

I am a final-year student studying Information Systems. I became interested in Data Science after taking courses in statistics and machine learning. I enjoy working with real-world datasets and finding patterns in data. I am seeking an internship where I can work with data pipelines and predictive models.

Skills and Abilities

- **Statistics**
- **Machine Learning basics**
- **Python (pandas, numpy, scikit-learn)**
- **Tableau, Power BI**
- **SQL**
- **Web Scraping (BeautifulSoup, Selenium)**

Projects

- **Analysis of flight delay data**
- **Web scraping and analysis of laptop prices**
- **Classification model for loan default prediction**
- **Visualization dashboard for sales performance**

Education

- ***(2019–2024) International University of Central Asia
Information Systems***
- ***(2022–2023) Data Science Bootcamp***
-
