About Me

I am a third-year university student majoring in Applied Mathematics. I have a strong interest in data analysis and machine learning. During my studies, I actively participated in academic projects related to statistics and data modeling. I am looking for a Data Analyst or Data Science internship to gain industry experience.

Skills and Abilities

- Probability Theory

- Statistics

- Linear Algebra

- Python (numpy, pandas, matplotlib, sklearn)

- SQL (PostgreSQL, MySQL)

- Excel

- Data Visualization

Projects

- Analysis of customer churn for a telecom company

- Exploratory data analysis of COVID-19 statistics

- Sales forecasting using linear regression

- Data cleaning and visualization of e-commerce transactions

Education

- (2020–2025) Kyrgyz State Technical University
  Applied Mathematics and Informatics

- (2023) Online Course: Data Analysis with Python (Coursera)
